FOR MORE THAN A HALF CENTURY THE NAME OF MAYO HAS
BEEN A GUARANTEE OF FIRST QUALITY NURSERY STOCK

BEVERLY NURSERIES

MAYO BROTHERS NURSERY CO.

PITTSFORD, N. Y.

FLOWERING DOGWOOD TREES

(*Cornus Florida*)

In the spring, its large white flowers are spectacularly beautiful; in the autumn its glittering red berries, clustered in a nest of glossy foliage, are ornamental to the highest degree. When the robins have eaten the berries, the foliage turns various shades of pink, crimson, scarlet, and maroon, and falls late. During the winter the massed twiggy branches make a lacy pattern of intricate beauty. There are no trees or shrubs which possess a larger measure of attractiveness throughout the whole year.

Ours are specimen trees—good root systems, very hardy. 4-5 ft., \$2.00 each, \$17.50 per 10; 5-6 ft., \$3.00 each, \$25.00 per 10.

IMPORTANT INFORMATION

The Order Blank which accompanies this Catalogue is for the convenience of customers. It will greatly facilitate filling orders.

Always Give Full Address—name, post office, county, and state. It is very important that this information be plainly written.

SHIPPING INSTRUCTIONS—Give your nearest express office and railway station, or stage route, and the name of the transportation company. State how you wish us to ship—by freight or express; also designate the route; otherwise we use our own discretion in forwarding.

PRICES in this catalogue are f.o.b. Pittsford, N. Y. There are no charges for packing or boxing.

TERMS CASH on or before delivery to transportation companies.

ACCOUNTS—When requested, we will open accounts with persons or firms of approved credit, or with those who offer satisfactory references. Express C.O.D. Orders will be filled, provided one-half of the amount is sent with the order.

GUARANTY—It is obviously to our advantage to have all stock that leaves our Nursery true-to-name and to grow to the entire satisfaction of the purchaser. Every effort is put forth to have these conditions a part of every sale. But conditions of soil, climate, care, are sometimes such that it is difficult for any tree or plant to grow; and, because there are so many things that influence the life of a tree or plant after it leaves our Nursery, we do not give any warranty as to description, quality, or productiveness. If it proved that stock is not true-to-name, by error on our part, we will replace such plants immediately; and it is agreed between the purchaser and ourselves that we shall not be held responsible for an amount greater than the purchase price of the stock.

THE PRICES quoted herein for trees and plants are fixed after careful, painstaking computation of the exact cost of production, and are made to fit the quality of MAYO'S BEVERLY NURSERIES and allow ourselves a fairly legitimate margin of profit. We are not controlled by the prices of other nurserymen, which in many instances are the result of haphazard guess-work, and the goods must necessarily be of a quality to fit the price, for no one will continue to sell goods at a loss.

YOUR GUARANTEE—You may order for planting the trees, shrubs, and plants described in this catalogue with the distinct understanding that if upon receipt of shipment you find anything contained in the shipment that is not satisfactory in every way, shape, and manner, immediately repack and return to us express collect and we will refund full purchase price.

ERRORS—If mistakes are made in filling orders, we will gladly rectify them if notified within ten days after receipt of stock.

CARE OF STOCK WHEN RECEIVED—Soak the roots of the trees and plants with water, and either place them in a cellar and keep damp or bury them in a trench until the holes are ready for their transplanting. If dry and shriveled, the best plan is to bury them for a few days, root and branch, in damp earth; if frozen when received, bury in earth until the frost is out.

39 Main Street
Pittsford, New York
Gentlemen:*

A friend of mine recently purchased some nursery stock from you and I was very much impressed with the quality.

May I please have your latest catalogue and etc.?

*Very truly yours,
Gerald F. D. Reichley
1980 Commonwealth Ave.
Brighton 35, Massachusetts*

FRUITS FOR HOME AND MARKET

The home garden that has the necessary space available is not complete without one or more fruit trees. The healthfulness of fruit is proverbial, and surely is more pleasurable to buy a fruit tree than it is to pay a doctor's bill.

APPLES

YELLOW TRANSPARENT—Medium size, pale yellow, good.

TWENTY OUNCE—Very large yellow, splashed with red.

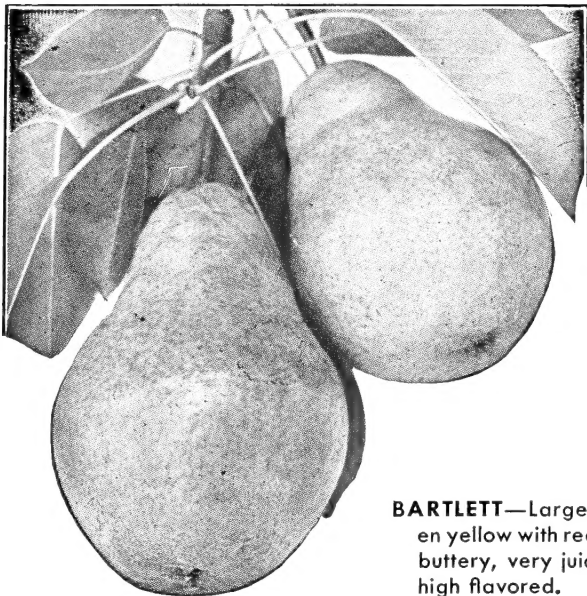

McINTOSH—Large, deep red. Flesh crisp, tender, juicy.

NORTHERN SPY—Large, bright red, spread with delicate bloom, flesh tender, rich, delicious.

RHODE ISLAND GREENING—Large greenish yellow, flesh tender.

3 Year, \$2.00 each, \$18.50 per 10

PEARS

BARTLETT—Large, waxen yellow with red blush, buttery, very juicy, and high flavored.

ANJOU (Beurre d'Anjou)—Large, handsome, greenish yellow, with a dull red cheek on the exposed side, flesh fine grained.

CLAPP'S FAVORITE—Very large, yellowish green to full yellow, rich.

ANGOULEME—Large, greenish yellow, splashed with russett, a good bearer.

SECKEL—Small but handsome and delicious, very juicy.

3 Year, \$2.50 each, \$22.50 per 10

DWARF PEARS

A special list of Pears most suitable as dwarfs. Angouleme is the best of all.

ANGOULEME
ANJOU

BARTLETT
CLAPP'S FAVORITE

KIEFFER
SECKEL

Two Year, Extra Fine, \$2.50 each, \$20.00 per 10

APRICOTS

Ripe fruit can be had a month or two earlier than the best early peaches, and granted suitable soil and location, the Apricot is practically as hardy.

ACME—Large; yellow with red cheek; flesh of good quality; free-stone. August.

HARRIS—Large; bright yellow with red cheek; flesh juicy, of good quality. July, August.

MOORPARK—Large, nearly round; orange with orange-red cheek; flesh very juicy, with rich flavor. August.

1 Year Extra Fine Trees, \$2.00 each, \$18.50 per 10

SWEET CHERRIES

DIKEMAN—Large black.

GOVERNOR WOOD—Large, light yellow shaded and mottled with light red.

LAMBERT—Very large, dark purplish red, turning to almost jet black when full ripe.

ROYAL ANN—Very large, pale yellow, spotted and shaded with deep red.

BLACK TARTARIAN—Very large black, tender.

3 Year, \$2.50 each, \$22.50 per 10

PLUMS

BRADSHAW—Very large, dark, violet-red.

GERMAN PRUNE—Large, oval, dark purple.

YELLOW GAGE—Large, oval, golden yellow, slightly clouded, flesh deep yellow, rich, sugary, melting.

OCTOBER PURPLE—Large, round, purple.

RED JUNE—Professor Bailey says: "By all odds the best Oriental Plum." Large, brilliant, red.

3 Year, \$2.50 each, \$22.50 per 10

P E A C H T R E E S

BEVERLY SELECTS

HALE HAVEN—as the outstanding peach of the year. A large new yellow freestone. Developed at Michigan Experiment Station, by crossing the two popular varieties, J. H. Hale and South Haven. Its high color even before complete ripening, gives it great market value because of the advantage of premature picking, packing, and shipping. September 1st.

OTHER SPLENDID VARIETIES

GOLDEN JUBILEE—A choice recent introduction by the New Jersey Experiment Station. Tree habits and fruit resemble Elberta; but fruit ripens a few days before Carman. The skin is yellow with red blush; flesh golden yellow, juicy, tender, sweet, and freestone.

ELBERTA—Orange-yellow overspread with red.

ROCHESTER—Orange-yellow and deep dark red.

J. H. HALE—Rich golden-yellow carmine cheek.

We Offer Splendid 2 Year Old Trees, Extra Selected, Grading
4 to 5 ft., \$1.50 each, \$12.50 per 10

QUINCES

The Quince is highly valued for preserves, marmalades, jellies, and for flavoring purposes, and is worthy of much more extensive planting. Thrives in warm, fertile soil, and the quality of the fruit improves in proportion as its cultural requirements are met.

ORANGE—Large; brilliant golden yellow; flesh tender and flavor good; tree productive if well cultivated. Late September.

REA—Larger than Orange; in other respects much resembling that variety; of excellent quality; tree a strong grower with large, dark foliage.

Two Year, Extra Fine, \$2.00 each

PARADISE ASPARAGUS

The new popular variety of Asparagus. Some outstanding characteristics of Paradise which makes it the new leading variety: 1. Produces normal crop sooner. 2. Strong grower. 3. Twice the yield as other varieties. 4. Rust resistance. 5. Milder flavor.

Extra Selected 2 Year Plants, \$4.25 per 100

GRAPES

GOLDEN MUSCAT—Wonderful new golden yellow Grape. For home use and roadside market it is one of the best. Possesses rich golden color and fine muscat aroma of European Muscat. Vine is vigorous, productive; the clusters are very large and compact. Berries are large, juicy, sweet and tender.

Selected 1 Year Plants, \$1.15 each

CONCORD

GRAPES—Continued

Any section in which Dent Corn has a liberal season in which to mature, is a practical section for the growing of grape vines. Big juicy bearing grape vines. Every vine 3 years old and a bearing plant. We offer the finest varieties obtainable.

CONCORD—Black.

NIAGARA—White.

CHAMPAGNE—Red.

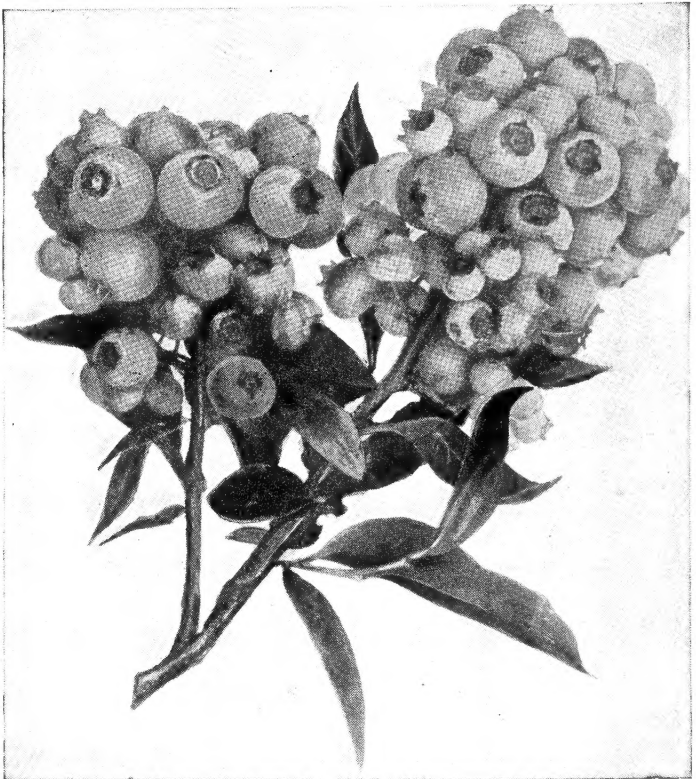

CACO—Black.

PORTLAND—Early white.

DELAWARE—Red. Berries small, very sweet.

60c each, \$4.50 per 10

B L U E B E R R I E S

BLUEBERRY

Nursery grown hybrids producing giant size fruit—quick bearing. We offer large 12-18 in. plants balled and burlapped. Fruiting season early July 'till late summer.

VARIETIES—CABOT

CONCORD

RUBEL

\$1.75 each

CURRENTS

WILDER—Berries very large. Moderate acidity, an immense yielder.

RED LAKE—Very large bright red fruit, thin skins.

2 year old plants, 65c each, \$1.75 per 3

RHUBARB (Pie Plant)

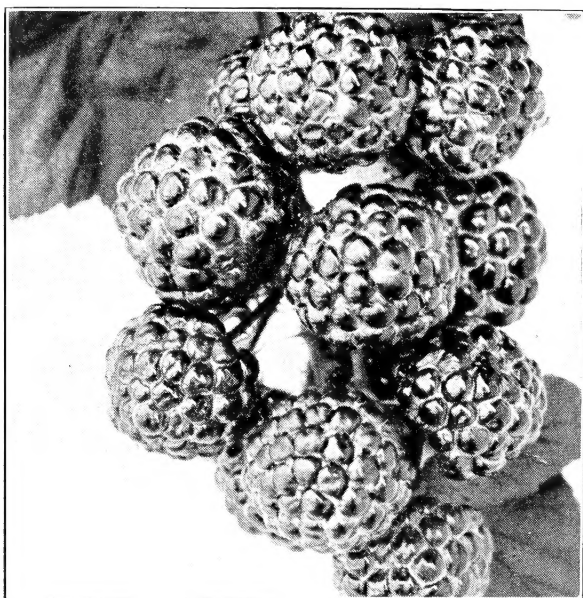

BURBANK GIANT—Extra large early, tender.

EARLY SCARLET—Rather small, early and good.

MYATT'S LINNAEUS—Early, tender with a mild, sub-acid flavor.

2 Year Roots, 50c each, \$4.50 per 10

R A S P B E R R I E S

BLACK RASPBERRY

HONEYSWEET—the queen of the black Raspberries. Extra large, sweet, and oh, so delicious! Fruits in July. We offer large 2 year plants.

\$2.25 per 10, \$20.00 per 100

RED RASPBERRIES

INDIAN SUMMER (Everbearing)—One of the earliest to fruit in the summer. Gives you a generous Fall crop.

\$2.50 per 10

LATHAM—The big giant raspberry. 2 year transplants.

\$2.25 per 10, \$20.00 per 100

BLACKBERRIES

BLOWERS—Extremely large, averaging 1 inch in diameter and 1¼ to 1½ inches long; exceedingly sweet, with no perceptible core; wonderfully vigorous, many of the canes reaching 14 feet in length; perfectly hardy.

EARLY HARVEST—Berries rather small, very juicy, sweet, and of excellent quality; canes strong and upright in growth, with few thorns; an enormous bearer.

Strong 2 Year Plants, \$2.25 per 10, \$20.00 per 100

S T R A W B E R R I E S

Extra Fine Field Grown Plants, \$3.25 per 100

EXTRA-EARLY STRAWBERRIES

BEACON—The best early variety in existence. Very productive. Large, glossy red, firm and refreshing.

MARSHALL—Large; handsome; dark crimson; flesh firm, rich; moderately productive.

MID-JUNE STRAWBERRIES

BOUQUET—Big plant, berry, and crop. Glossy red, firm, delicious. Ships long distances.

BLISS—Berry of supreme quality, fragrant, high-flavored; glossy red, large; very productive.

GLEN MARY—Large sometimes flattened; light red, sweet and rich; very productive.

JUMBO—A mammoth plant and a whale of a berry. It's a good one, too. Try it.

McKINLEY—Large; handsome; of excellent quality, and very productive.

MASTODON

SUNSET—Strong growing plants. Berries deep red. Excellent either fresh or cooked.

TABLE QUEEN—A big producer of large, bright red berries, delicious and pleasing. A good canner.

LATE JUNE STRAWBERRIES

BRANDYWINE—Very large, heart-shaped; glossy red to the center; fine flavor.

Extra Fine Field Grown Plants, \$3.25 per 100

EVERBEARING STRAWBERRIES

MASTODON EVERBEARING—The giant Mastodon and king of all everbearing Strawberries. Harvest a crop three months after setting the plants and continue to pick the berries until frost comes.

Strong Field Grown Plants, \$4.50 per 100

HARDY NUT TREES

BEARING FILBERT TREES—Northern New York grown, withstanding temperatures of 15° below zero without winter killing, which should be sufficient warranty of their hardiness throughout the eastern and northeastern sections. Plant them on the lawns as ornamental shrubs.

BARCELONA—A large round nut, fully self-husking. Rich in flavor. Kernel uniform in size and very prolific.

DUCHILLY—A long nut of the finest quality. Very rich in flavor. Tree a strong upright grower.

DAVIANA—A long striped nut of the DuChilly type. A heavy producer and the nuts are rich in flavor and of the highest quality. It is always best to plant one or two varieties for pollenization. We offer the above varieties in the following sizes:

3-4 ft., \$2.00 each, \$18.50 per 10

4-5 ft., 2.50 each, 20.00 per 10

DECIDUOUS TREES AS ORNAMENTS

Plant more trees around you; they will give shade, beauty, food for birds and bees, provide nesting-places for birds, and bring generous financial recompense.

A. PLATANOIDES (Norway Maple)—Height, 100 feet. Handsome spreading head; leaves large, pale yellow in autumn.

10-12 ft., 1¾-2 in. cal., \$10.00 each

A. PLATANOIDES SCHWEDLERI (A. Schwedleri, Purple-leaved Norway Maple)—Strikingly beautiful; leaves at first bright red, changing to dark green, in autumn golden yellow.

10-12 ft., 1¾-2 in. cal., \$15.00 each

NORWAY MAPLE

A. SACCHARUM (Sugar or Rock Maple)—Height, 120 feet. Symmetrical, dense head; leaves bright green above, lighter beneath, in autumn yellow and scarlet. Maple syrup is made from its sap. Much favored for planting along avenues.

10-12 ft., 1 $\frac{3}{4}$ -2 in. cal., \$10.00 each

A. RUBRUM (Red, Scarlet, or Swamp Maple)—Height, 50 to 100 feet. Branches spreading; red blossoms in spring before the foliage; in autumn the leaves are brilliant red and scarlet.

10-12 ft., 1 $\frac{3}{4}$ -2 in. cal., \$10.00 each

WEeping WILLOW—Beautiful, lacy trees. Attractive for waterside planting. Very graceful tree. Makes cool shade for hot days and enlivens the winter landscape with a colorful bark.

6-8 ft., \$2.50 each; 8-10 ft., \$3.50 each; 10-12 ft., \$5.00 each

For Quick Growing Shade

PLANT THE NEW CHINESE ELM

CHINESE ELM

CHINESE ELMS—Continued

ULMUS PUMILA (Chinese or Siberian Elm)—Fastest growing tree we have ever seen. It has more speed in growth than the Silver Maple, with none of its brashness. It is equally at home at 40 degrees below zero in the Dakotas and Minnesota, or at 120 degrees above zero in Arizona. Good for street planting, wind breaks, screens, or as individual specimens about the lawn.

4-5 ft., \$1.50 each, \$13.50 per 10

6-7 ft., \$2.50 each, \$22.50 per 10

8-10 ft., \$3.50 each, \$30.00 per 10

10-12 ft., 1½-2 in. cal., \$6.50 each, \$50.00 per 10

LOMBARDY POPLARS—Probably the most romantic of all deciduous trees. In age, they assume a gnarled and venerable appearance, like the trees in the paintings of the old Italian masters. Because of their quick growth, these poplars can be planted closely together as a screen.

6-8 ft., \$1.00 each, \$8.50 per 10

8-10 ft., \$1.50 each, \$12.50 per 10

10-12 ft., \$2.50 each, \$22.50 per 10

SPECIMEN LOMBARDY POPLAR—12 feet high. 2-2½ in. caliper. Branched from the ground up. (Italian style.) Wonderful trees for landscape work. **\$5.00 each.**

LOMBARDY POPULAR

LIRIODENDRON TULIPIFERA (Tulip Tree)—Height, to 150 feet. Large, peculiarly shaped, glossy leaves; flowers large, tulip-shaped, of mingled green, yellow, cream, and orange. Magnificent for street, park, or lawn planting.

8-10 ft., \$6.00 each, \$60.00 per doz.

SPECIMEN TULIP TREES

10-12 feet high. 2½-3 in. caliper.

\$10.00 each.

DECIDUOUS SHRUBS

About the Home

Along the roadway, along the pathway, along the house foundation, as borders, for massing. Wherever the place may be, a wise selection from this list which follows will make possible flowering shrubs around the home or scattered over the estate from early spring to late summer; and the ornamental is prolonged by the subsequent white or brightly colored berries and the handsome vari-colored leaves that form the characteristic autumnal garb of certain of the genera.

All shrubs are well established, two and three years old, and of a size to give immediate effect.

THUNBERGI

BERBERIS THUNBERGI (Thunberg's Japanese Barberry)—Hardy, dense, low-growing shrub, with spreading, deeply grooved, thorny branches and small, bright green leaves turning brilliant orange and yellow in autumn. The large, red berries remain on the bushes throughout the winter giving a cheery bit of color to the place where it grows. Fine for low, ornamental hedges. Bushy plants, with abundant roots.

15-18 in., 45c each, \$4.00 per 10, \$35.00 per 100

CALYCANTHUS FLORIDUS (Sweet Shrub)—The old-fashioned "shrub." Flowers are double, of a rare chocolate color; of spicy fragrance. Blooms in June and at intervals after that.

2-3 ft., 75c each, \$7.00 per doz.

CERCIS CANADENSIS (Judas Tree, or Red-Bud)—Large, rapid growing shrub; showy, pink flowers in early spring before the leaves.

3-5 ft., \$1.50 each

CHIONANTHUS VIRGINICA (Fringe Tree)—Tall-growing shrub, flowers snow-white, in drooping panicles 4 to 6 inches long, appear in May or June; dark, blue berries.

3-4 ft., \$1.25 each

CLETHRA ALNIFOLIA (Sweet Pepper Bush)—Fragrant white flowers in lavish profusion from July to September. Excellent for shady spots.

2-3 ft., \$1.00 each

CYDONIA JAPONICA (Flowering Quince)—Low shrub with formidable thorns and dazzling scarlet flowers.

18-24 in., 75c each

CRATAEGUS COCCINEA (Scarlet Thorn)—Single white flowers in spring and scarlet fruit in autumn.

4-5 ft., \$5.00 each

CALYCANTHUS

CORNUS AMOMUM (Silky Dogwood)—Reddish purple twigs; flowers creamy white, in early summer; fruit blue. Grows 6 to 10 feet tall.
2-3 ft., 75c each; 3-4 ft., \$1.00 each

DEUTZIA GRACILIS (Dwarf Deutzia)—Slender shrub; flowers pure white, in long, graceful racemes.
12-15 in., 75c each

DEUTZIA SCABRA PLENA (D. Crenata Plena, Double Pink Deutzia)
—Tall-growing; resplendent in early summer with double white flowers suffused with rose.
2-3 ft., \$1.00 each

FORSYTHIA FORTUNEI—Good habit, arching branches; vigorous grower. Golden yellow.
2-3 ft., 75c each; 3-4 ft., \$1.00 each

FORSYTHIA INTERMEDIA—Bright yellow flowers in April before leaves unfold.
2-3 ft., 75c each; 3-4 ft., \$1.00 each

HYDRANGEA ARBORESCENS (Hills-of-Snow)—Large double white flower panicles; very showy. August.
2-3 ft., \$1.00 each

HYDRANGEA PANICULATA GRANDIFLORA—Very showy white flowers, later changing to pink. August.
2-3 ft., 75c each; 3-4 ft., \$1.00 each

KOLKWITZIA (Beauty Bush)—A beautiful shrub. Covered in early May with mass of pink flowers.
2-3 ft., \$1.25 each

LONICERA FRAGRANTISSIMA (Early Fragrant Honeysuckle)—Fragrant white flowers. April-May. Half evergreen.
2-3 ft., \$1.00 each; 3-4 ft., \$1.25 each

LONICERA TARTARICA (Pink Tartarian Honeysuckle)—Pink and white. Flowers and fruit freely produced.
2-3 ft., 75c each; 3-4 ft., \$1.00 each

LONICERA TARTARICA ALBA (White Tartarian Honeysuckle)—A white variety of the above. Bright red berries.
2-3 ft., 75c each; 3-4 ft., \$1.00 each

PHILADELPHUS CORONARIUS (Common Mockorange)—White fragrant flowers borne in May and June.
2-3 ft., \$1.00 each; 3-4 ft., \$1.25 each

CYDONIA

RHODOTYPOS KERROIDES (White Kerria)—Graceful shrub. Pure white flowers borne in May and June. Shiny black berries in autumn.
2-3 ft., 75c each; 3-4 ft., \$1.00 each

SYMPHORICAPOS RACEMOSUS (Snowberry)—Pinkish flowers, white berries.
2-3 ft., 75c each; 3-4 ft., \$1.00 each

SYMPHORICAPOS VULGARIS (Coral Berry or Indian Currant)—Plump red fruits clustered along the branches.
2-3 ft., 75c each; 3-4 ft., \$1.00 each

SPIREA ANTHONY WATERER (Waterer Spirea)—Rose-pink flowers produced all summer.
15-18 in., 75c each; 18-24 in., \$1.00 each

SPIREA PRUNIFOLIA (Bridal Wreath)—White. May free flowering. Handsome dark green foliage turning orange in autumn.
2-3 ft., 75c each; 3-4 ft., \$1.00 each

SPIREA VAN HOUTTEI (Van Houtte Spirea)—White. May-June. Extremely free flowering and very adaptable.
2-3 ft., 75c each; 3-4 ft., \$1.00 each

HYDRANGAEA

HONEYSUCKLE TARTARIAN

VIBURNUM CARLESI (Fragrant Viburnum)—Waxy pink deliciously fragrant flowers appear in little round clusters as the leaves are unfolding.

1½-2 ft., B-B, \$3.50 each

WEIGELA EVA RATHKE (Red Flowering Weigela)—Carmine flowers. June-August. Most floriferous.

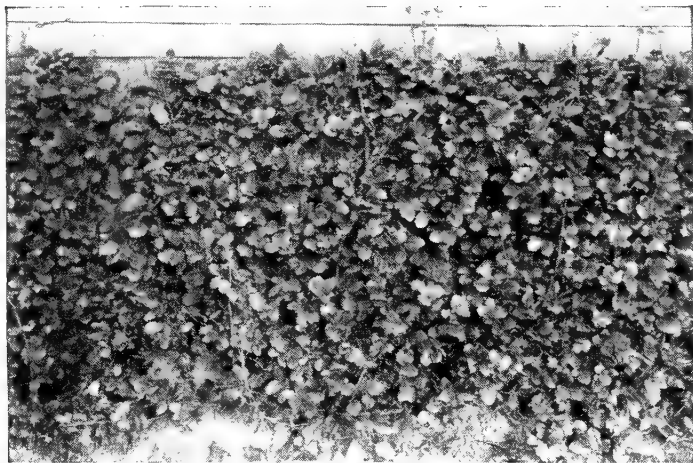

18-24 in., 75c each; 2-3 ft., \$1.00 each

WEIGELA ROSEA (Pink Weigela)—Rose-colored flowers in May. 2-3 ft., 75c each; 3-4 ft., \$1.00 each

VINES

MANY USES FOR ORNAMENTAL VINES

Ornamental Vines provide shade for porches, pergolas, arbors; as screens, they contribute privacy; as wall-coverings, they lend a dignified, home-like permanent atmosphere to a place, such as mere coats of paint can never give. The foliage is restful, the flowers gorgeous; some have brilliantly colored berries and autumnal leaf-colorings that are the envy and despair of artists. Plant these vines freely about your home for in them are possibilities for greatly increasing the charm and value of your property.

BITTERSWEET IVY

AMPELOPSIS QUINQUEFOLIA (Ivy—Virginia Creeper)—Vigorous; clings to walls, making quick, dense shade; leaves gorgeous in autumn; blue berries.

Strong Plants, Field Grown, 75c each, \$2.10 per 3

AMPELOPSIS VEITCHI (*A. Veitchi Tricuspidata*, Japanese or Boston Ivy)—Rapid-growing; clings to the smoothest surface; the deep green foliage turns crimson in autumn; blue berries.

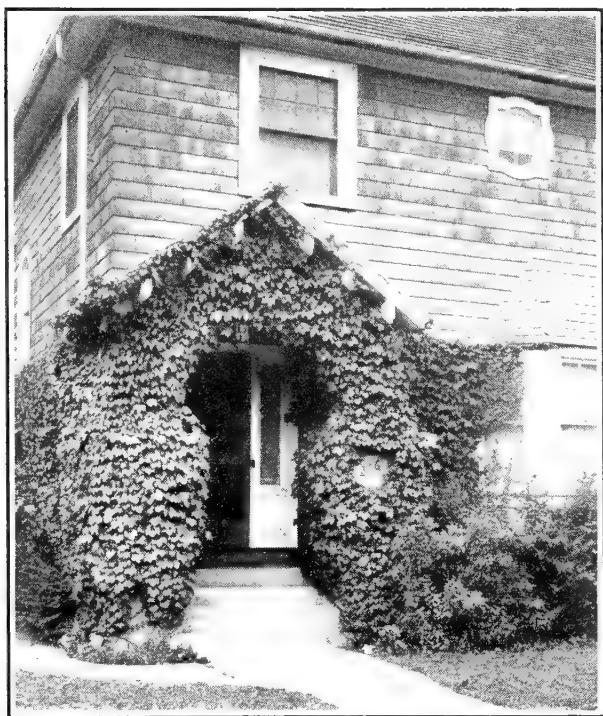

3 Year Plants, Strong, 75c each, \$2.10 per 3

EUONYMUS RADICANS (*Creeping Euonymus*)—Attractive evergreen climber; rich green foliage; fruits pink.

2 Year Plants, \$1.00 each

EVERGREEN BITTERSWEET (*Climbing Euonymus Vegetus*)—Beautiful 365 days of the year. Particularly adapted to cover garden walls, old stumps or embankments with any exposure, but the fruiting is best when the plants receive the warm sun; the plants are strong, robust climbers and in fall and winter bear a profusion of bright red berries. The vine is covered the whole year with green foliage, and absolutely holds the color even in hottest summer or coldest winter.

Good Strong Plants, \$1.00 each, \$10.00 per doz.

AMPELOPSIS

LYCIUM CHINENSE (*Matrimony Vine*)—Hardy; pink or purple flowers and scarlet berries.

2 Year Plants, 75c each, \$7.50 per doz.

POLYGONUM AUBERTI (*Silver Lace Vine*)—One of the most desirable flowering climbers, the plant is of strong, vigorous growth, attaining a height of 25 feet or more, producing through the summer and fall great foamy sprays of white flowers, and a well established plant during its long flowering period is a mass of bloom.

Strong Plants, \$1.00 each, \$10.00 per doz.

HALL'S HONEYSUCKLE—Have you an unsightly bank? Is it hard to make grass grow? Does the bank wash badly after hard rains? By setting these plants one foot apart each way, they will cover the bank with a beautiful velvet carpet the first season. Almost truly evergreen, its deliciously sweet scented white flowers are produced in early summer in great abundance, and a second crop follows in September.

**1 Year No. 1 Plants, \$3.00 per 10, \$20.00 per 100
\$140.00 per 1000**

VINES—Continued

WISTERIA SINENSIS (Chinese Wisteria)—Great clusters of pale violet flowers. When established, the vine makes an enormous annual growth.

\$1.25 each

A Collection of **12 BUSHY SHRUBS for only \$8.75**

For the price of a bouquet of flowers you may now secure 12 strong 2 year old shrubs, 2 to 3 feet tall, all different. This collection will add more dollars to the value of your property.

SPIRAEA BILLARDI—Rather tall; flowers bright pink in July and August. Very showy.

SNOWBALL (Arrow-wood)—Upright bushy shrub; foliage changes to purple and red; flowers creamy white in May; berries blue and black.

RED BARKED DOGWOOD—Spreading shrubs 8 to 10 feet tall; purple or dark blood-red branches, greenish white flowers; berries black.

TARTARIAN UPRIGHT HONEYSUCKLE—Bears a profusion of bright pink flowers in the spring; orange scarlet berries.

BUTTERFLY BUSH—Fragrant, rose-purple flowers, with orange eye, in dense, drooping panicles, about the middle of August.

SWEET SYRINGA—Will add attractiveness and fragrance to the home gardens.

DEUTZIA PRIDE OF ROCHESTER—Large double white flowers which are tinged with pink in the bud.

HYDRANGEA PANICULATA GRANDIFLORA—The hardiest and most popular Hydrangea. In July and August massive plumes of white flowers, later changing to pink, bend the branches with their weight.

SYRINGA GRANDIFLORA—Large-flowered Mock Orange. Height, 10 ft. Large, pure white, fragrant flowers.

SPIREA AUREA—Golden yellow foliage and double white flowers in June. Effective in shrubbery, for planting along banks or as screens.

SNOWBERRY—Height, 3 to 5 ft. Pinkish flowers, white berries. 2 to 3 ft.

TAMARIX—Bright pink flowers in slender racemes in April and May. Very showy with its reddish bark.

H Y B R I D T E A R O S E S

E. G. HILL

Exquisite Color in Your Garden from June to October

BEVERLY'S 7 SELECTED FAVORITES—If one Rose in this collection is undesirable then 2 of one kind will be accepted. Strong 2 Year Eastern Grown plants. One each of the varieties shown for **\$7.50**.

ETOILE DE HOLLANDE—Brilliant red blooms of magnificent size, petals enormous; very fragrant. Plants branching, particularly free flowering and healthy.

JOANNA HILL—Golden-yellow to buff. Exquisitely formed. Made its debut as a cut-flower.

MRS. AARON WARD—Delightful small buds of golden color, opening to double, showy shaped flowers of gold and pink; with an agreeable fragrance. A spreading dwarf plant, with healthy, holly-like foliage, and always in bloom.

MARGARET McGREDY—Large, ovoid buds and double, cupped flowers of solid orange-vermilion. Foliage light green, resistant to black-spot and mildew; very prolific and hardy wherever tried.

DAME EDITH HELEN—Shapely buds and substantial, high-centered blooms of clear pink, sweetly scented and freely produced on long, strong stems.

E. G. HILL—Claimed to be one of the largest red forcing varieties of true Hybrid Tea character. The flower is dazzling scarlet, shading to a deeper pure red as it develops, but never showing purple.

MME. JULES BROUCHE—Superb white flowers, shaded light blush at center; fragrant. Plant exceptionally strong, healthy, and very free flowering.

CLIMBING ROSES

THE THREE MOST POPULAR VARIETIES

DOROTHY PERKINS—Shell pink flowers borne in large clusters.

PRIMROSE—New hardy yellow climber with large double canary yellow flowers in great profusion.

PAUL'S SCARLET CLIMBER—Brilliant dazzling red.

\$1.25 each

POLYANTHA ROSES

BABY DOROTHY—Bright pink, in large corymbs; incessant bloom; hardy; rapid grower. 20 inches.

DOROTHY PERKINS

CLIMBING ROSES—Continued

MME. NORBERT LEVAVASSEUR (Red Baby Rambler)—Bright red flowers, which last a long time, are borne in clusters of twenty or more. Always in bloom. 1½ to 2 ft.

\$1.25 each

RUGOSA ROSES

F. J. GROOTENDORST—A Rugosa with small red flowers like a carnation. One of the finest Roses for shrub or hedge planting. It is continually in flower.

ROSA RUGOSA ALBA—Single, white, five-petaled flowers, brilliant red berries; foliage wrinkled, dark lustrous green; stems thickly covered with thorns and bristles.

ROSA RUGOSA RUBRA—Same as above, but flowers are deep rosy carmine.

\$1.25 each

SHOWY BEAUTIFUL PEONIES

FESTIVA MAXIMA

A real flower show in your garden in the spring. Our plants are strong divisions—3 to 5 eyes guaranteed.

PRESIDENT ROOSEVELT—Semi-rose type; color deep, rich, brilliant red; mid-season; fine.

CANARI—Yellowish; globular bomb type of medium size; fragrant; late.

FESTIVA MAXIMA—Pure white; flecked with carmine; very large, rose type; free-flowering; fragrant; medium early.

Landscaping

A BEAUTIFUL GARDEN IS A JOY FOREVER

A well-planned lawn, properly shrubbed, a house nestling in the grateful shade of cool trees—these are the things that make a home. A lovely stretch of green grass, bordered with a bed of gorgeous blossoms, leading the eye back past clumps of evergreens, flowering shrubs and ornamental trees—what a vista!

Truly a beautiful garden is a joy forever. And the astonishing thing about it all is how simple a matter it is if properly planned. A few shrubs here to hide the bare foundation wall, a group of evergreens there to break a sharp corner line of the building, one or two taller shrubs judiciously placed as accent points—and the thing is done.

Then your house is a home—outside where everyone sees it, as well as inside where only your intimates see it. And with a modest outlay you have enhanced the value of your property out of all proportion to the money spent.

We specialize in a complete landscape service. Rockeries, rose gardens, estates, evergreen and deciduous planting. An expert landscape department is at your service. Write for particulars.

SYRINGA—THE LILACS

Without a doubt among the most popular of the early spring bloomers. Their bright green foliage and large, fragrant panicles of flowers contribute brightness and perfume to the shrubbery of which they are a part. We offer any of the following varieties:

SYRINGA CHINENSIS (S. Rothomagensis, Rowen Lilac)—Slender arching branches and narrow leaves; large, loose reddish purple flower-plumes that are variable in color.

3-4 ft., \$1.50 each; 4-5 ft., \$2.25 each

SYRINGA JAPONICA (Japanese Tree Lilac)—A native of the forests of northern Japan that reaches a height of 40 feet with a tall stem sometimes a foot or more in diameter. Leaves large, dark, lustrous green; flower clusters white, 12 to 18 inches long and 12 to 14 inches wide. Magnificent.

4-5 ft., \$2.25 each; 5-6 ft., \$3.00 each

SYRINGA PERSICA (Persian Lilac)—A distinct, wiry bush with very fragrant, light purple flowers in large, loose clusters, is the Persian Lilac. The bush is about 8 feet high, more graceful in general appearance than the Common Lilac.

2-3 ft., \$1.00 each; 3-4 ft., \$1.50 each

SYRINGA PERSICA ALBA (White Persian Lilac)—The White Persian Lilac is similar in all respects to its purple prototype, except that the blooms are white, faintly tinged with blue when first open.

4-5 ft., \$2.25 each; 5-6 ft., \$3.00 each

SYRINGA VILLOSA (Late Lilac)—A coarse, tree-like shrub 12 feet tall, the Downy or Late Lilac bears pale pinkish flowers in late June.

3-4 ft., \$1.50 each; 4-5 ft., \$2.25 each

SYRINGA VULGARIS (Purple Lilac)—Scarcely any shrub is better known than the Common Purple Lilac, and none endures neglect and ill treatment longer and rewards it more richly. The delicious scent of the lilac blossoms is one of man's choicest inheritances.

3-4 ft., \$1.50 each; 4-5 ft., \$2.25 each

SYRINGA VULGARIS ALBA (White Lilac)—The White Lilacs, as a rule, are taller trees than the purple, and the bunches are inclined to be a little looser. They are lovely, fragrant, and highly desirable adjuncts to any garden.

3-4 ft., \$1.50 each; 4-5 ft., \$2.25 each

HARDY PERENNIAL PLANTS

ANEMONE

Used for borders, along the front of shrubberies, along driveways and walks, or planted in masses on lawns. Because being perennial they do not require replanting each season. Always beautiful, always entitled to our most affectionate regard making our homes more attractive. They hold a strong place in the hearts of all plant lovers and should be planted generously. They combine diversity of foliage and great variety in form and color while many varieties are excellent for cutting.

MAKE YOUR GARDEN A RIOT OF COLOR FROM JUNE UNTIL FROST
